ATTACHMENT NO. V-A : Modified Re-Entry Plan

Potential motion: Approve the Modified Re-Entry Plan

Recommended action: Approve the motion

Rationale: I am recommending the Board pass Phase 1 of the Re-Entry Plan. The plan has had minor modifications since our last meetings. Dates were adjusted for all four phases. Phase 1 will add students in pre-k, kindergarten, and special education in grades five through 8. All dates that are presented are tentative pending on favorable health metrics. Additional information has been added to the presentation to address the concerns from nursing, supplies and custodial procedures. New metrics that are being used by the Boone County Health Department will be used to help pinpoint the timing that phases can be added. Phases two, three, and four will be approved at a later time when they have been reviewed and discussed through a board committee.
