

ATTACHMENT NO. V-C: Purchase of SMART Boards

Potential motion: Move to approve the purchase of 12 SMART Boards not to exceed a cost of \$42,000

Recommended action: Approve the motion

Currently, there is about \$33,000 in this year's technology equipment budget that can be used towards this purchase along with additional funding from Manchester and NBHS supply budgets and the Manchester PTO. Purchasing the 12 Boards allows for two Boards at \$1500 each under a current SMART promotion. This will allow us to purchase 12 for less than what 10 would cost after July 1.

Purchasing the equipment out of this year's budget will allow for less of a surplus in this year's budget and the funds currently allocated in next year's budget can be reallocated for potential use elsewhere.

I should have quotes from Bradfields, Chicago Office Technology Group, Frostline and United Visual and by the time of the Board meeting.
