

Curriculum Design Update: CIA January 2022

K-4 Literacy

- The team has reviewed multiple resources and has selected four for vendor presentations.
- Vendor presentations are scheduled for Friday, January 14th.
- Next Steps:
 - Select resources to pilot in the fall of 2022.
 - Plan pilot this Spring to be prepared for fall.

High School Science

- The team participated in vendor presentations in September and has selected one resource to pilot.
- The pilot for McGraw Hill Inspire Science begins this month for Earth Science, Physical Science, and Physics.
- The team will select a resource this Spring and will begin implementation in the fall of 2022.

5-8 ELA / 5-8 Social Studies

- These teams are meeting in small groups to support and monitor the implementation of their new resources.

K-5 Math

- 5th Grade Math has met to determine which module assessments and assessment questions measure their priority standards.
- K-4 math will meet in small groups on January 20th.
- K-5 math has received Into Math coaching from HMH twice this year.

High School Math, ELA, and Social Studies

- These teams are meeting in small groups as they continue to build their units in Chalk, which is our curriculum mapping software.
- Next Steps:
 - Assessment design training for ELA and Social Studies.
 - ELA will renew the online licenses for their current resource.
 - Math will review current assessments to determine how they currently assess their priority standards.
