INSIGHT

— AN EDUCATION SERVICE PARTNER —

2500+ POSITIONS FILLED PER DAY
50+ HAPPY DISTRICT PARTNERS

HERE AT INSIGHT, we appreciate that your top priority is to deliver a quality education to your students - it's our priority, too. Our team members are focused on Pre K-12 and are passionate about education and child development.

We are a leading provider of managed educational services to over 50 school districts. We recruit, hire, train, place, and manage qualified substitute personnel to fill in for teachers, paraprofessionals, secretaries, and more. We fill over 2,500 jobs per day with a team of over 5,000 employees.

"EFFICIENCY" is our watchword. We have found the best, most cost-efficient way to successfully connect school districts in need with education professionals. Our strategy uses metrics, trends, and both quantitative and qualitative data to get the most qualified professionals in classrooms with maximum consistency and minimum stress.

Since we transitioned from our former substitute teacher provider to Insight, we have experienced the highest customer service we have ever had, along with higher fill rates than in past years.

— Superintendent, NJSD

Our close relationships with school districts and faculty allow us to provide the most information possible about each job. Here at Insight, we believe a prepared employee is a successful and effective employee, so we cover it all - from environment to expectations.

Our client list is growing exponentially due to our excellent customer service and the quality of our talent. Our partnership creates a host of savings for your district. Working with us saves insurance, payroll, and tax-related costs. Plus, your district will benefit from our streamlined system. We manage substitute placement, employee time tracking, and more.

WE CARE. It's about more than the numbers here at Insight. We value our relationships and we deeply appreciate the effect our team members have on education. In addition to the cost savings that your district will incur when working with us, our award-winning customer service team will partner with you to ensure the transition is seamless.

We have a dedicated group of recruiters and support staff who source, onboard and manage the educational staff. Our aim is to successfully fill all of your replacement needs.
