## SCHOOLWIDE PLAN COMPONENTS

1. Please include the names of the participants in the creation of this plan:

NAME	REPRESENTATION
Matt Klett	Title I Director, Assistant Principal
Melissa Geyman	Special Education Director; Professional Development
Molly Lilja	Curriculum Coordinator
Jamie Pearce	Professional Development
Allison Louis	ELL Director; Preschool Director
Jamie Pearce	Principal
Megan Nilson	Counselor
Laura Stroup	Social Worker

2. If applicable, please include a list of State educational agency and local educational agency programs and other Federal programs under subsection (a)(3) that will be consolidated in the schoolwide program:
  1. --
3. Conduct a comprehensive needs assessment of the entire school:
  - a. Include a copy of the document used to conduct the assessment.

Note: We have included the 5Essentials

4. Describe schoolwide reform strategies in narrative form to include the following:
  - a. Provide opportunities for all children, including each of the subgroups of students (as defined in section 1111(c)(2) to meet the challenging State academic standards:
  - b. Use methods and instructional strategies that strengthen the academic program in the school, increase the amount and quality of learning time, and help provide an enriched and accelerated curriculum, which may include programs, activities, and courses necessary to provide a well-rounded education; and
  - c. Address the needs of all children in the school, but particularly the needs of those at risk of not meeting the challenging State academic standards.

UE/MS:

We have an after school program specifically for our ELL population to provide additional academic support. At the UE we have an outside organization provide academic support to our highest academic need students. The MS initiated a ZAP -- Zeroes Aren't Permitted -- to offer opportunities for those students struggling to complete homework. A study hall has been created to provide academic support during the school for all students; those especially struggling are provided with a study skills course in a small group setting.

In addition, we have creatively used technology to strengthen our academic programs, have brought back Social Studies to be taught as a stand-alone class instead of intergrated into our core classes, and have added courses to reach those who struggle and those who excel in English and Math.

5. Provide any activity information regarding counseling, school-based mental health programs, specialized instructional support services, mentoring services, and other strategies to improve students' skills outside the academic subject areas.

The social workers and counselors put out a needs assessment specific to what social/emotional needs the students have. They then are able to provide specific small-group sessions to address these needs. In addition, they also provide one-on-one counseling at least once for all throughout the year and on an as needed basis. Outside sources, such as SAS counselors provide awareness of dating violence and signs of suicide workshops for all students. Erin's Law is provided to children through Rockford Sexual Assault. Rosecrance comes out weekly to meet with students one-to-one to meet their specific social-emotional needs. In the elementary schools, the social workers provide character education lessons to the classroom based upon monthly lessons. School wide assemblies are offered throughout the year to focus on mental health topics. In addition the morning announcements contain character education words of wisdom.

6. Include any activity information regarding the preparation for and awareness of opportunities for postsecondary education and the workforce, which may include career and technical education programs and broadening secondary school students' access to coursework to earn postsecondary credit while still in high school (such as Advanced Placement, International Baccalaureate, dual or concurrent enrollment, or early college high schools).

Career fairs and field trips are offered to all students to become aware of the opportunities after their schooling is complete. Additional field trips to career opportunities, such as technical trade exhibits, are offered yearly. We have established times for students to meet with college, career and military recruiters.

Running Start is offered for students to earn a high school diploma and associate's degree concurrently through Rock Valley Junior College. Advance Now and CEANCI allow students to earn industry recognized certifications. This includes but is not limited to Microsoft, automotive tech, welding, computer programming, nursing, construction, etc. The freshmen seminar class allows students to research future careers and plan out their high school path to reach their future career and college readiness goals.

7. Specify any activity information regarding the implementation of a school-wide tiered model to prevent and address problem behavior, and early intervening services, coordinated with similar activities and services carried out under the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.).

We have implemented PBIS -- Positive Behavioral Interventions and Supports. This has the emphasis on using functional assessment and positive approaches to encourage good behavior. As part of this, we have an RtI team to consider the use of PBIS for any student whose behavior impedes his or her learning or the learning of others. When the behavior does impede learning, a Behavior Intervention Plan is created. We use a Functional Behavior Assessment (FBA) to create a Behavior Intervention Plan or BIP.

Our tiered approach includes three tiers. Tier 1 -- consists of rules, routines, and physical arrangements that are developed and taught by school staff to prevent initial occurrences of behavior the school would like to target for change. Tier 2 is targeted group support for SOME students and Tier 3 is individual support for a FEW students. These are meant to improve lifestyle results (personal, health, social, family, work, recreation) for all children and youth by making problem behavior less effective, efficient, and relevant, and desired behavior more functional.

8. Include any activity information regarding professional development and other activities for teachers, paraprofessionals, and other school personnel to improve instruction and use of data from academic assessments, and to recruit and retain effective teachers, particularly in high need subjects.

We have not used Title funds in the past to recruit and retain effective teachers. Our workforce pools has generally been solid and so those funds have been able to be used elsewhere for professional development. However, in regard to improving instruction and use of data for academic assessments, we offer many opportunities. This includes newer state initiatives such as Common Core and Next Generation Science Standards to grade level and subject specific instruction such as math, science, etc. as well as, PARCC, MAP -- Measure of Academic Progress and other such data tools have been offered.

These opportunities are done in house at our School Improvement Plan days, academic days with the assistance of subs to cover teacher classrooms, and outside conferences and workshops.

9. Describe any activity information regarding strategies for assisting preschool children in the transition from early childhood education programs to local elementary school programs.
