

ATTACHMENT NO. VIII-I: Establishment of Senior Citizen Ticket Price and Allow Remaining Season Tickets to be Sold at Half Price for Basketball Season

Potential motion: Move to approve senior citizen ticket price for sports equal to the student price.

Recommended action: Approve the motion.

There has been some conversation about establishing a senior citizen ticket price for athletic contests. Seniors are complaining about having to pay full price and several other districts offer lower senior pricing. I am recommending that the price be established as equal to the student price. This way, in future years, the price will tie to the conference student pricing without the need for further Board action unless the Board wishes to make some type of change. This recommendation came through the Community Involvement Committee.
