

Each year we evaluate our district's classroom AV. This year's goal is to finish refreshing our classrooms that have partially working equipment, or particular models in 7-13-year-old range.

For a few years now, we have replaced traditional Smartboard setups with interactive projectors. Due to technical progression, and long wait times on projectors, we have decided to move from Interactive projectors to Large Touch TVs. The Large touch TVs will be mounted over top and center of our teacher's primary classroom whiteboard. (No holes will be made on the whiteboards.)

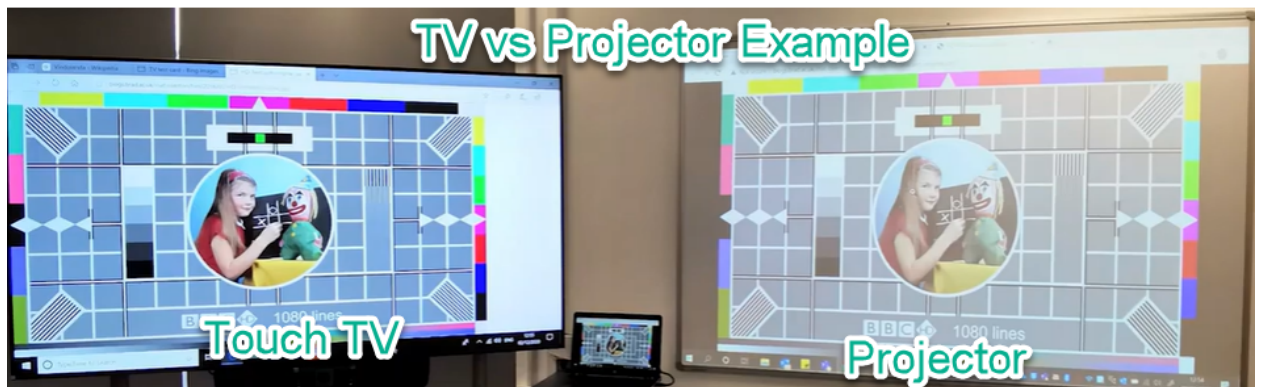

We evaluated 5 different TVs and decided to go with ClearTouch TV's.

ClearTouch brought out a demo unit that we tested over a week's time. Both Principals and tech successfully evaluated and liked this TV.

Compared to a projector, the large touch TVs are better in the following areas.

- Better color / Brighter with classroom lights on.
- TVs Show much more detail (3840 x 2160 vs 1280x800)
- Better touch and writing capabilities
- More laptop-to-screen connectivity options
- Built-in Android computer
- No Maintenance (Filter Cleans - Bulb Changes)
- Robust Management Features for tech
- Longer warranty (5 years included)

We would like to start replacing projectors for TVs in schools that have large replacement needs.

The two schools that have a higher quantity of replacement needs are the High School and Poplar Grove. (11 at each of the schools)

Once these are installed, we will offer our teachers training provided by Clear touch. The training can be completed with a live trainer, or self-paced.

We would also like to place touch TVs in some of our building's meeting rooms. These rooms do not have any type of tv or projector setups and rely on 8-year-old shared projectors that are end of life. The TVs will come with a camera mic system that will allow for virtual professional development.

This need calls for 5-touch TVs of various sizes.

The following buildings would receive Touch TVs:

NBHS Library - UE: Tv on wheels shared between library and meeting room

MES: Meeting room **CAP:** Meeting room **District Office:** Meeting room

We requested quotes from six vendors. We received three quotes. Out of the three quotes, one was within specification.

The vendor with the lowest valid bid is: ITSavvy **\$116,325**

PE/General Use District-wide Mobile Av Setup.

Need:

Replace each building's general use Projector with a portable cart. The current device is around 9 years old and lacks brightness and fine detail. This projector would primarily be used by the PE teacher for day-to-day instruction. This cart would also be used for events that have a large audience and require a big screen. (assemblies, movie nights, trainings, and many other uses)

This setup consists of the following:

- Cart on wheels that has an area to place a laptop.
- Extra bright projector with a large picture lens
- Powered loudspeaker
- Roll up extension cable

Placement:

PGE - MAN - CAP will receive pull-down 10' screens that will be attached to the wall.

The middle school will receive a large portable screen that is used on the stage. (Shared with UE for events)

HS and UE both have large white sections on the gym walls for pe teachers to project on.

We requested quotes from 4 vendors and received 4 quotes.

The vendor with the lowest bid is: **SHI \$23,729**

Final Cost

All of this equipment is based upon replacement needs around the district and will come from the technology department budgets and follows replacement protocols we conduct each year.

The total amount for these replacement purchases is: **\$140,054**
