

ATTACHMENT IX-H

ATTACHMENT IX-H: Addition of Two Bus Assistants for Pre-School Routes

Suggested Motion: Approve the Addition of Two Bus Assistants for Pre-School Routes

Recommended Action: Approve as presented.

The Illinois State Board of Education has a ratio of attendants per pre-schooler in each school vehicle, stating a driver alone may transport ten children between three and five years of age and should be assisted by an adult attendant for each additional one to eight children between two and five years of age.

With our new preschool students, we need to be adding an aide on each preschool route. One aide for the AM class (AM & mid-day) and the PM class (mid-day & PM).
