

ATTACHMENT IX-I

ATTACHMENT IX-I: Addition of Nurse at Manchester and Capron

Suggested Motion: Approve the Addition of a Nurse at Manchester and Capron Elementary Schools

Recommended Action: Approve as presented.

Approve the hire of a new 5.75 hour school nurse position for Capron Elementary School and Manchester Elementary School.

At the end of 2017, the medical needs of a student at Manchester Elementary increased. Due to the student's newly identified needs, the Individualized Education Team met and determined that it was necessary to have a nurse in the building and accessible during student attendance times. Currently one nurse splits her day between Capron Elementary and Manchester. To cover the increased needs a new nurse position will be required to cover the additional time needed.
