Reference: **Boiler retube**

Ceroni Piping Company would like to thank you for the opportunity of submitting a proposal on the above referenced project. The following scope of work is our interpretation of responsibility to this project. Please contact the undersigned with any questions of further clarifications required.

Base Work:

- Supply and install new boiler tubes
- Tubes will be install by a certified installer
- Once boiler tubes have been removed boiler will be cleaned before the reinstall of the new tubes
- Fill system vent air
- Ready for boiler treatment

Assumptions & Clarifications:

- Boiler shell is in good condition this will be inspected once tubes have been removed
- Ceroni piping recommends adding necessary chemicals to pickle the new tubes and clean any missed grease in boiler (to be completed by owners chemical company)
- Pricing is good for 30 days

Items not included:

- Connections to any other equipment not identified.
- Overtime or premium time, bonds of any kind.
- Inspection will not include any major repairs or parts not listed above in base work

Total price \$13,068.00

Sincerely,
CERONI PIPING COMPANY
Nick Fadness
