

ATTACHMENT NO. X-F: Spring Refunding

Suggested Motion: Move to approve the Spring Refunding Plan

Recommended Action: Approve the motion.

Due to the extended closure of the school year from COVID, it is being recommended that the District look to partially reimburse families for paid transportation fees and Sports Participation fees to those students that only played spring sports.

Paid Transportation:

We have about 14 families that would receive a partial refund of their paid transportation fees. The reimbursement would be calculated to refund a quarter of their original amount paid. The maximum total reimbursement for this would be around \$1,400.

Spring Sports:

In the 2019-2020 school year students paid a one time \$50 participation fee that allowed them to play any sport. It is being recommended to reimburse \$50 to families that have a student that only signed up to play a spring sport. Data is being gathered to determine how many students would receive a refund.

If approved the checks will be approved and processed with the bill at the May Board Meeting.
