

ATTACHMENT NO. XI-C:	Approval of Purchase of Sub-Notebooks
Potential motion:	Move to approve the Purchase of 140 Sub-Notebooks
Recommended action:	Approve the motion

The Technology Department is requesting to purchase 140 Dell 3150 Windows Sub-Notebooks. (\$299.61 each, plus \$22.90 4gb ram, totaling \$322.51). Dell incorrectly shipped us these devices and we negotiated the price from \$354.99 to \$299.61 a savings of \$55.38 each. The device is our current standard for sub-notebook computing in our district. Many hours of programming went into making it work in our environment. This sub-notebook was specifically designed for student use in K-12 education. It has a nice rubber frame around the edges, a durable keyboard, and interchangeable parts that are easily obtainable. Our last batch of Dell Sub-Notebooks lasted 7 years. The Dell 3150 Sub-Notebook is multi-user friendly and works well in any grade throughout the district.
