|----------------------|--|
| ATTACHMENT XIII-I-A: | New Board Orientation |
| Suggested Motion: | None |
| Recommended Action: | Identify potential dates for the first new board orientation with the IASB |

RELATED INFORMATION:

I have contacted the Illinois Association of School Boards to find some potential dates for them to have a field service representative come out and begin the Board development process with the Board. I will have some additional July dates by Monday evening.

June 1 or 17 are potential dates that work with current staff and IASB. Depending upon whether or not the Board hires a new business manager, it may make sense to confirm what dates he or she is available as well.

Some Boards try to do this as a Saturday workshop as well. If a date cannot be worked out with the IASB, as a backup, some of the ROE staff has been trained to manage Board orientations and would be willing to assist the Board.

Please let me know if you have any questions.
