

School Board

Committees

The School Board may establish committees to assist with the Board's governance function and, in some situations, to comply with State law requirements. These committees are known as Board committees and report directly to the Board. Committee members may include both Board members and non-Board members depending on the committee's purpose. The Board President makes all Board committee appointments unless specifically stated otherwise. Board committee meetings shall comply with the Opens Meetings Act. A Board committee may not take final action on behalf of the Board – it may only make recommendations to the Board.

Standing Board Committees

A standing committee is created for an indefinite term although its members will fluctuate. Standing committees are:

1. Board Policy Committee

Purpose: The purpose of the Policy Committee is to provide district leadership in the development, review, and establishment of district policies and administrative procedures in order to promote the orderly operation of the district and increase student achievement. Special Board Committees

Special committees may be created by the Board of Education for specific purposes or to investigate special issues. A special committee shall be automatically dissolved after presenting its final report to the Board of Education or at the Board's discretion. Citizen advisory committees may be used to interpret school needs to the community and to gather information from the community.

Community Liaison

The Board recognizes that many governmental agencies and community organizations, while not primarily concerned with education, play a definite role in education. Therefore, the Board shall establish a positive working relationship with public and private organizations that contribute to the educational process and to the general welfare of all persons of the community. The Board President shall appoint Board members to serve as liaisons between the District and community organization and report to the Board in communication, activities, and plans of the organization that might pertain to District affairs.

Board Committee Recommendations

A board committee will decide each issue on its agenda by consensus or by roll call vote. Each committee member will have an equal vote. Any member may request a roll call vote on recommendations to the Board. In either case committees shall not be used to prevent or stonewall issues from coming to the Board.

1. Roll Call Vote

If a committee chooses to vote by roll call on issues brought before them, then once voted upon the issue will move forward to the Board with a positive or negative committee

recommendation. One member of the minority shall have an opportunity at the Board level to state the opposing position.

2. Consensus

Achieving consensus requires serious treatment of every group member's considered opinion. Once a decision is made it is important to trust in members' discretion in follow-up action. In the ideal case, those who wish to take up some action want to hear those who oppose it, because they count on the fact that the ensuing debate will improve the consensus. In theory, action without resolution of considered opposition will be rare and done with attention to minimize damage to relationships.

Should the committee choose consensus then all recommendations to the Board should be a position supported by the entire committee and no minority statement should be needed. Should consensus not be reached during the committee meeting the issue shall remain before the committee and efforts will be made to reach a recommendation supported by all the members. In the event the committee chair determines a consensus recommendation can not be reached the chair shall report this to the Board and the item will leave the committee's agenda.

Nothing in this policy limits the authority of the Superintendent or designee to create and use committees that report to him or her or to other staff members.
