Conduct Code for Participants in Extracurricular Activities

The ~~Discipline Committee~~ Superintendent or designee, using input from coaches and sponsors of extracurricular activities, shall develop a conduct code for all participants in extracurricular activities consistent with School Board policy ~~and the rules adopted by any association in which the School District maintains a membership.~~ The conduct code shall: (1) require participants in extracurricular activities to conduct themselves as good citizens and exemplars of their school at all times, including after school, on days when school is not in session, and whether on ~~and~~ off school property; (2) emphasize that hazing and bullying activities are strictly prohibited; and (23) notify participants that failure to abide by ~~them~~ it could result in removal from the activity. The conduct code shall be reviewed by the Building Principal periodically at his or her discretion and presented to the Board ~~of Education.~~ All coaches and sponsors of extracurricular activities shall annually review the rules of conduct with participants. ~~All students are provided a copy of the Extracurricular Codes of Conduct at the beginning of the school year, and provide participants with a copy.~~ In addition, coaches and sponsors of interscholastic athletic programs shall provide instruction on steroid abuse prevention to students in grades 7 through 12 participating in these programs.

Performance Enhancing Drug Testing

State law requires the Illinois High School Association (IHSA) to prohibit a student from participating in an athletic competition sponsored or sanctioned by IHSA unless the student has agreed, (a) not to use any performance-enhancing substances on IHSA's current banned drug list, and (b) to submit to random testing for these substances in the student's body if the student is in high school. ~~In~~ addition, the student's parent/guardian must sign a statement for IHSA containing specific ~~acknowledgements~~ acknowledgments including that the student, if in high school, may be subject to random performance-enhancing substance testing and that violating the laws regulating the use of performance-enhancing substances is a crime.

IHSA, with oversight from the Illinois Department of Public Health, administers a performance-enhancing substance testing program under which high school participants in athletic competition sponsored or sanctioned by IHSA are tested at multiple times throughout the athletic season for the presence in their bodies of performance-enhancing substances on the IHSA's banned drug list.
