

ATTACHMENT XI-B

ATTACHMENT XI-B:	After-School Enrichment Program – Capron Elementary
Suggested Motion:	Move to approve the After-School Enrichment Program at Capron Elementary.
Recommended Action:	Approve as presented.

Various assessments such as AIMSWeb, MAP and ISAT indicate that Capron Elementary ELL students fall behind non-ELL students in language arts, and reading in particular. Mr. Klett has made a request to offer an after-school enrichment program for their ELL students in Grades K-2. The Capron Elementary certified ELL teacher would provide enrichment activities that will address these reading discrepancies for one hour after school every Tuesday and Thursday.

The approximate cost is \$717.34, based on an hourly rate of \$27.59 for 26 days of instruction.

February 16, 2011

Dear Dr. Baule:

Capron Elementary School would like to offer an after school enrichment program for our ELL students in Grades K-2. This program would run for one hour after school every Tuesday & Thursday. It would provide enrichment in Language Arts, concentrating in particular with reading. We have found through various assessments, such as AIMSWeb, MAP and ISAT that our ELL students lag behind non-ELL students in this area. With your approval, we will have our certified ELL teacher provide students with enrichment activities that will address the reading discrepancies.

As soon as we have your approval, we will start the program. An approximate cost is \$717.34 based on the hourly rate of \$27.59 and 26 days of instruction. There is no plan to provide transportation.

Sincerely,

Matthew T. Klett  
Principal
