

Recommendation for Adoption Kindergarten - 4th Grade Mathematics Curriculum Resources

Rationale:

A new mathematics resource for kindergarten through 4th grade will provide the following advantages for teachers and students.

- We are selecting a new resource in order to provide more mathematical computation at grade level for our students.
- One of our goals was to find a resource with a balance between mathematical computation and grade-level appropriate word problems that build student independence.

Recommendation:

Reveal Math published by McGraw-Hill is recommended for adoption as our Kindergarten through 4th grade mathematics resource. The following features of the program stand out as key reasons for our recommendation.

- Provides a balance between mathematical computation and grade-level appropriate word problems that build student independence.
- Aligns to Fifth - Eighth Grade resource.
- Uses evidence-based instructional practices for mathematics.
- Directly aligns to the Common Core State Standards (CCSS) for mathematics.
- Includes differentiated resources as well as resources to support interventions at Tier 2.
- Includes customizable assessments with differentiated test questions.
- Includes teacher supports, such as: premade presentations, online filters to find resources easily, and reports aligned to standards.

Process:

In order to arrive at this recommendation, our K-4 math committee engaged in the following process.

- September 2025
 - Determined goals
 - Reviewed samples and selected resources for vendor presentations
- October 2025
 - Held vendor presentations for Reveal Math and Stemsscopes Math
 - Determined timeline for pilots
- December 2025
 - Participated in pilot training and planned for Stemsscopes Math pilot
- January 2026-March 2026
 - Piloted Stemsscopes Math
 - Participated in pilot training and planning for Reveal Math pilot
 - Piloted Reveal Math
- April 2026
 - Made final selection and recommendation for resource adoption
