

**FAMILY OWNED. AMERICAN MADE.**

# FLEX3

BY RESILITE

Step into the future of training with the FLEX3 Mat, designed for athletes who demand nothing but the best. Proudly made in America, the FLEX3 delivers unmatched durability, safety, and style

## ASTM IMPACT-LEADING FOAM CORE

At the heart of FLEX3 is our industry-leading, American-made foam core. Engineered for superior impact absorption, it's built to exceed ASTM standards, ensuring the safest possible training surface for your athletes. Protect your team with the mat trusted by champions.

## REINFORCED NORTH AMERICAN VINYL

Our reinforced vinyl, sourced right here in North America, not only delivers durability but also provides an enhanced feel underfoot. This top-quality surface offers the perfect balance of firmness and flexibility, making every movement smooth and secure.

## UNLIMITED ECO-FRIENDLY PRINTING & TOP COAT

Flex3 mats are customizable with our eco-friendly printing process, giving you unlimited graphic potential to showcase your brand, sponsors, or facility. Coupled with a durable, high-performance top coat, your designs stay vibrant and pristine—mat after mat, season after season.

**⚠ WARNING ⚠**  
 Any activity involving motion, height, or physical contact creates the possibility of serious bodily injury, including permanent paralysis, or death, from falling or landing on the neck, head or other parts of the body.  
 • The risk can be reduced by using the mat only under the supervision of trained instructors and by complying with the Instructions for Care, Handling, and Safe Use available on our website at: [www.resilite.com](http://www.resilite.com)  
**Best Practices When Designing Your Mat:**  
 1. Consider the speed and type of the drill, skill level, size and age of the users, number of participants, and available space.  
 2. Always make sure you have allowed enough space to properly and safely perform the chosen maneuver(s).  
 • Allow an adequate buffer zone from other users and from the end of the mat.  
 • Note that each maneuver or drill may require different buffer zones.  
 3. It may be necessary to add additional mats to the outside perimeter of this mat/mats to create a proper safety mat area.
