

ATTACHMENT NO. IX-D: Softball Fence

Potential motion: Move to approve contracting Rock Valley Fence to repair and add a bottom rail to the first base, third base, and outfield fence on the varsity softball field.

Recommended action: Approve the motion

It is recommended that the board approve the contracting of Rock Valley Fence to repair and add a bottom rail to the first base, third base, and outfield fence on the varsity softball field. The fence has been found to be in disrepair in multiple areas, leading to safety concerns, specifically resulting in at least one event where an athlete was in a position where they could have been significantly injured.

The quotes provided were presented in the November 12th, 2025 Business Services Meeting. Four quotes were provided for repairs and three for the installation of new fencing. In discussion, it was noted that only three companies were able to install the fencing and/or complete the repairs during this fall. It was noted that Rock Valley Fence was not only able to complete the repairs this fall, but also had strong references from committee members. It is the recommendation from the committee to contract with Rock Valley Fence, as they are able to complete the work this fall.
