

ATTACHMENT NO. IX. K: Ten-Year Life Safety

Potential motion: Motion to have Richard L. Johnson/GMB perform the Ten-Year Life Safety Survey on all school buildings

Recommended action: Approve as presented

It is recommended that the Board approve Richard L. Johnson/GMB to conduct the Ten-Year Life Safety Survey on all six school buildings. This was discussed at both the April 9, 2026 Facilities/Long Range Committee and the April 14, 2026 Business Committee Meetings.

This is required by school code to be conducted every ten years. All six of our buildings are required to go through this by December of 2026. By conducting this now, the District can use the report to plan long-term projects that are urgent, required, and recommended. It is also a critical piece to help plan with Master Facilities Long Range Planning and the Strategic Plan.

Total cost: **\$42,000**
