

Horizon Education  
January 14, 2025 CIA Meeting

Horizon Education provides ACT Preparation that includes benchmark assessments, curriculum and lessons, data and reporting, and professional development for teachers. The ACT has been adopted by ISBE as our HS state assessment, and we want to prepare our students to be successful on the test. The Horizon Education materials will provide us with assessments and data to use to instruct students using ACT lessons aligned to the state standards and state assessment.

**Every ACT Preparation Subscription Includes:**

- Benchmark Assessments**  
Comprehensive full-length assessments designed to mimic the real assessment experience for students.
- Curriculum Support**  
Structured lesson plans and resources to guide educators in effectively teaching ACT content and strategies.
- Data and Reporting**  
In-depth reports and analytics to track student progress and inform instructional decisions that improve scores.
- Professional Development**  
Training and resources for educators to enhance their skills and effectiveness in delivering assessment preparation.

This purchase of \$12,000 is for one full year and will be paid for using Title I funds allocated to the high school. This purchase includes Horizon Education for 9th, 10th, and 11th grade students so we can begin preparing students in 9th grade and so that we can measure growth with the benchmark assessments.

By purchasing Horizon Education, we will not need to purchase the Pre-ACT through ACT Education, which currently costs \$20.50 per student for each test. If purchased through ACT Education, we would pay approximately \$15,375 for our 9th-11th grade students to take 2 Pre-ACT tests. This would not include professional development, curriculum support, or additional practice tests with data and reporting.
