2. General Education Provisions Act (GEPA) Section 427 *

Section 427 of GEPA (20 U.S.C. 1228a) affects all applicants submitting proposals under this program. This section requires each applicant to include in its proposal a description of the steps the applicant proposes to take to ensure equitable access to, and participate in, its federally assisted program for students, teachers, and other program beneficiaries with special needs.

This provision allows applicants discretion in developing the required description. The statute highlights six types of barriers that can impede equitable access or participation: gender, race, national origin, color, disability, or age. The applicant should determine whether these or other barriers may prevent students, teachers, etc. from such access to, or participation in, the federally funded project or activity. The description of steps to be taken to overcome these barriers need not be lengthy; the school district may provide a clear and succinct description of how it plans to address those barriers that are applicable to its circumstances. In addition, the information may be provided in a single narration, or, if appropriate, may be discussed in connection with related topics in the application.

Section 427 is not intended to duplicate the requirements of the civil rights statutes, but rather to ensure that, in designing their programs, applicants for federal funds address equity concerns that may affect the ability of certain beneficiaries to fully participate in the program and to achieve high standards. Consistent with requirements and its approved proposal, an applicant may use the federal funds awarded to it to eliminate barriers it identifies.

Describe the steps that will be taken to overcome barriers to equitable program participation of students, teachers, and other beneficiaries with special needs.

The district has a multi-tier plan in place to address the goals for the district. The top tier is the strategic plan that is adopted and the goals are reviewed every few years. This overarching plan creates a path for the Board goals and Superintendent goals for the district. From there the Principals each create goals for their schools. The goals all stem from the overarching goal that comes from the Strategic Plan. This plan was developed in collaboration with all stakeholders. The plans around the district revolve around the central themes of professional development, student achievement, staff retention and communication. A. Title I, Part A - Improving Basic Programs

Using data from School Report Card, local assessment data, ACCESS, College Board Assessments and IAR, the district determined that additional support is required for reading and math. The MTSS Team has determined that additional support will be provided at each school, multiple times a week, through the use of intervention aligned to our priority standards. At the elementary level, support also includes reading specialists, intervention teachers, and teacher assistants to support struggling students. Through our schoolwide and teacher teams, we have created common assessments to assess priority standards, and teams will use this data to provide interventions to students. Board of Education Strategic Plan Goal: Provide a comprehensive, innovative education focusing on the whole child to promote life, career, and post-secondary success. ISBE Goals: -Ninety percent or more of third-grade students are reading at or above grade level.-Ninety percent or more of fifth-grade students meet or exceed expectations in mathematics.-Ninety percent or more of ninth-grade students are on track to graduate with their cohort

At each Institute Day, the district provides professional learning opportunities for teachers aligned to our Strategic Plan goals in order to support their development. The district is continuously evaluating the way they program for students with special needs to improve their expectations and academic ability, and we have invested in co-teaching training and implementation in grades 5-12.

All students are supported by highly prepared and effective teachers and school leaders. Board of Education Strategic Plan Goal: Attract, develop, and retain quality and diverse staff who are committed to creating a culture of learning that engages students in their journey toward career, college, and life readiness. The district uses our Strategic Plan goals to plan professional development for all staff. Our focus for the 24-25 school year will be on Professional Learning Communities/Effective Teams, RTI and MTSS, SEL and Behavior, Reading and Math, Effective Instructional Practices, and Co-Teaching. Monthly late start PLC time will continue to focus on the use of data to drive instruction in order to provide Tier II intervention to students on priority standards. The district hired four instructional coaches as full time staff members in the 22-23 school year, and the coaches completed 35 student-centered coaching cycles with teachers in the 22-23 school year. Coaches work with individual teachers or small teams of teachers through coaching cycles to measure growth in a specific student learning goal. In the 23-24 school year, instructional coaches have added impact cycles to their work with teachers. The coaches will continue with both models for the 24-25 school year.

All students will receive research based instruction with lessons created based on the academic needs of students where lessons are differentiated as necessary. The curriculum being taught fully aligns to currently adopted state standards. The District created a reference document that aligned the WIDA Standards and Can-Do descriptors with its ELA and Math Curriculum maps for grades K-8. Teachers have access to the most recent district curriculum guides through a district curriculum repository, Chalk.com. The District uses a curriculum adoption process to ensure that all resources are aligned to state standards, will address the district's priorities, and will be effectively implemented with students. All teams use this same process when adopting a new Tier 1 resource. An implementation plan is created in conjunction with the pilot teachers to ensure fidelity of implementation.

Counselors at the High School and Middle School are working to identify students who may need additional assistance for transition and help decrease dropout rates and keep students on track for graduation. The district offers different educational programs, online programs and mentoring programs to assist students. School leadership teams review student data, both academic and social emotion, routinely to determine if students are at risk and may need an academic or SEL/behavioral intervention. Staff from Upper and Middle School have been trained so they are better equipped to help students that are at risk for being delinquent or neglected. The district is taking a proactive approach to identifying and assisting students. If a student is thought to have a learning disability, members of the educational team will meet and determine if further testing is necessary. Once any necessary testing has been conducted, the team will meet again to determine if the student is eligible for special education services. All families who seek enrollment for students in the district preschool program complete a questionnaire as well as participate in an interview with school staff. The information gleaned from this process is used to determine the students' at risk levels. The students identified as at highest risk are given preferential enrollment.

Middle School to High School: The high school counselors come over to the middle school to meet with all students in their classrooms to review course options, the content of each specific course offered, and what it entails to meet the standards of those courses. An orientation is offered at the high school for all incoming students and their parents. At this orientation, students and parents will be able to meet with all staff -- teachers, social workers, counselors, administration, extracurricular advisers and coaches. Tours are given of the school as well as free time for students and parents to view the entire school. There is also a general question and answer session. The district will work to coordinate elective courses from the middle school to high school in order to encourage interest. From High School to postsecondary: North Boone High School uses the guidance of the National Secondary Transition Technical Assistance Center (NSTTAC) in our transition plan. We assist students by helping them answer the following questions: Who am I? What do I want in life, now and in the future? What are some of the demands that I should meet now? What are the main barriers to getting what I want after high school? What are my options in the school and community for preparing me for what I want, now and in the future? We provide the following to assist students in this process: Career fairs and field trips are offered to all students to become aware of the opportunities after their schooling is complete. Additional field trips to career opportunities, such as technical trade exhibits, are offered yearly. We have established times for students to meet with college, career and military recruiters. Running Start is offered for students to earn a high school diploma and associate's degree concurrently through Rock Valley Junior College. CEANCI allows students to earn industry recognized certifications. This includes but is not limited to Microsoft, automotive tech, computer networking, nursing, cosmetology, etc. All students have access to XELLO, an online career interest program.

NBCUSD #200 uses the HLS and approved WIDA screening process during registration and throughout the year as students enroll to determine services needs and supports. Supports are determined on an individual student basis. Families participate in placement decisions and program development at the time of screening and during BPAC meetings. Staff recruitment, training and retention is done with a focus on providing the highest quality services for all of our students. Title III monies are used to supplement student language development through summer school, staff training, and the purchase of support materials and native language resources. The District is working to improve Tier III services for all students. EL staff meet monthly as a PLC to work on standard alignment and explore native language resources to support students in our TBE program and participate in staff development. BPAC meetings are held four times a year in collaboration with students and parents.

SPANISH LANGUAGE ARTS CURRICULUM

Indicate whether or not the district is offering Spanish language arts. All districts with a full-time TBE Spanish program must offer Spanish language arts.

Does the district offer Spanish language arts to TBE/TPI students?*

Yes No

Describe the instructional and evaluation methods used to measure student progress with respect to the Illinois [Spanish Language Arts Standards](#).

Spanish language arts standards are used when planning for student instruction. Materials are selected with these standards and student needs in mind. The District adopted a new ELA curriculum 23-24 for K-4. Recourse/ supports as well as Spanish Language Arts standards were considered throughout the adoption process. Student progress is monitored through formal/informal assessments, rubrics and teacher created learning scales. The EL teacher/administrator team meets monthly to work on curriculum alignment to Spanish Language Arts and WIDA standards. Staff participate in ongoing professional development.

REMINDER: Districts that offer Spanish language arts instruction to TBE or TPI students must provide at least one training session annually related to the implementation of the Illinois Spanish Language Arts Standards to staff who provide instruction in Spanish language arts.

Indicate whether the district is placing students in part-time TBE based on the criteria found in Section 228.30 (c)(3) and has the part-time TBE rational template in the students' records.

Renewal decisions are at the sole discretion of the Illinois State Board of Education, and the receipt of an award in a current or previous Term does not create any right to or expectation of renewal in a subsequent Term.

- e) Imposing a sanction on, or requiring the satisfactory participation in a drug abuse assistance or rehabilitation program by, any employee who is so convicted, as required by section 5 of the Drug-Free Workplace Act.
- f) Assisting employees in selecting a course of action in the event drug counseling, treatment, and rehabilitation are required and indicating that a trained referral team is in place.
- g) Making a good faith effort to continue to maintain a drug-free workplace through implementation of the Drug-Free Workplace Act.

31. The applicant represents and warrants that all of the certifications and assurances set forth herein, in the application, all attachments, and the Grant Agreement are and shall remain true and correct through the Term of the grant. During the Term of the grant, the award recipient shall provide the Illinois State Board of Education with notice of any change in circumstances affecting the certifications and assurances within ten (10) calendar days of the change. Failure to maintain all certifications and assurances or provide the required notice will result in the Illinois State Board of Education withholding future project funding until the award recipient provides documentation evidencing that the award recipient has returned to compliance with this provision, as determined by the Illinois State Board of Education.
