

ATTACHMENT NO. XII-F: Purchase of Transit Van

Suggested motion: Move to Approve the purchase of Transit Van

Recommended action: Approve as presented.

It is recommended that Board approve the purchase of a passenger transit van from Hamblock Ford for \$42,623. The District is looking to have more versatile vehicles to transport students and teams with a shortage of drivers. Coaches and club sponsors are being asked more frequently to help with driving. The van is easier to handle and drive than the activity bus which makes it more likely to be driven by a coach. We were able to get three quotes. These vans are not easy to come by and based on price, miles and year, this van was our best value. The van is budgeted for this year in the transportation budget and seats up to 11 people. We are scheduled to trade out 3 school buses this summer again. We would bring 2 back, this transit van will replace one of the buses and we will need to trade in our old minivan that is rusting out for another van which is to be determined.
