Would you be willing to have your wedding observed by a third party for reference purposes? If not, please indicate.

REFLEX uses a professional sound system. You get clean, clear sound no matter what size reception hall you have. From crisp highs to ground shaking lows, REFLEX has the sound to impress.

Bubble Effects add extra excitement to your party. Small bubble machines throw hundreds of bubbles out into the crowd intermittently throughout the night. Bubbles create a special atmosphere that both kids and adults will enjoy. They glow-in-the dark!

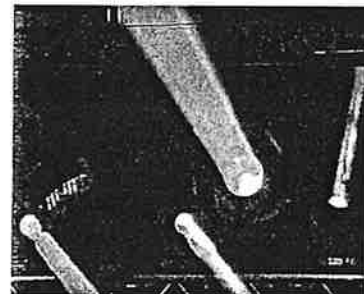

The **Geyser** effect is awesome! Imagine walking into your reception to an explosive plume of steam??? What a way to make a grand entrance. These effects can be used intermittently throughout the night for a powerful light display that coordinates with the music.

⚠ Geyser effects might have certain limitations depending on the venue. I can help with details if needed.

The **Up-Lighting** Option creates a unique color mood for your room by adding light accents to the walls and ceiling. Various colors are available and different placements can be attained to your liking.

The **Advanced Lighting Option** brings the high-tech rock concert experience to you. Loaded with over a dozen fixtures, this option really brings the WOW factor to your party! You can light up the night with beams of light all synchronized to the music. You also get a black backdrop that accents the DJ area and gives a finished, professional look. A professional hazer is included to accent the beams of light.

The **Projector** and portable screen will provide clear video and photo presentations in any room. DVD, PowerPoint, and standard media files can be played. Audio is played through main stereo speakers.

Ceremony music and mic set up ensures that your guest will hear your vows clearly in any environment – especially outdoor weddings. Musical accompaniment is also included.

The **Laser Projection** option is truly unique in the local area! You can add professional quality laser images to your wedding. I can also custom design your names and images for floor or wall projection. Your guests will talk about this effect for sure!
